OLD LEADER OF IRELAND MAY RETURN

Cosgrave Cabinet Has Resigned but Belief Is That He Will Again Head Government

REPUBLICAN CHIEF BEING TALKED OF

Vote of Wednesday Next Expected to Fall on Mr. Cosgrave Who Would Reform Cabinet

(Canadian Press Cable)

DUBLIN, March 28.—The politics of the Irish Free State have reached a crisis. Not until next Wednesday will the answer be known to the question of who shall rule. The Dail Eireann was adjourned without protest today, after the resignation of the Cosgrave Cabinet, which followed defeat in the Dail last night over a private member's bill.

PUSH DE VALERA

Sean O'Kelly, acting leader of the Fianna Fail (Republican) opposition, announced his party would nominate Eamon de Valera, now on a tour of the United States, as President. Mr. De Valera, for many years the chief of Irish Republicans, announced in Chicago that he would accept the presidency if summoned by the Dail.

But there is every indication that any nominee put forward by the Republicans as labor party will be defeated. The Cosgrave party, it is expected, will be supported by the thirteen independents of the House and enough other members to give the resigned Government a majority.

Under the Free State constitution procedure in the Dail regarding the election of a Government a change of ministry does not involve a general election. Names are intimated.

Fatality Caused By Collapse of Large Building

CINCINNATI, Ohio, March 28.—One man was dead, two missing and four injured, one perhaps fatally, here tonight as the result of the collapse of a four-story building late today. Hundreds of tons of rolled roofing paper was stored in the two upper floors.

Nearly 200 firemen, laborers and wrecking crew were working digging in the debris where they believed two men were buried.

The Flintkote Company, roofing manufacturers, were storing the paper on the two upper floors when the crash occurred, firemen said, because of the added weight.

Harry Havkamp, sixteen, clerk for the Southeast Johnson Company, electrical dealers, died tonight of injuries suffered when caught in the debris.

Howard Manifold, nineteen, shipping clerk, and Carl Westendorf, stenographer, were believed buried underneath the ruins.

Young Italy to Be Taught Fascism by Professors in Long Fascist Association

By WILLIAM H. STONEMAN

(Copyright, 1930, by The Chicago Daily News Foreign Service)

ROME, March 28.—All Italian university presidents and deans, as well as principals of high schools, hereafter are to be elected among Fascists of at least five years' standing in the Fascist party, according to a new scheme approved last night by the Fascist Grand Council now in session in Rome.

It is also made obligatory for college heads to assume the leadership of Fascist groups of professors and instructors which will be organized in each university, in order to show that their hearts are in the right place as far as politics is concerned and to set a good example to young students.

FOSTER INTELLECTUALISM

It is the common opinion of Fascist chiefs that the intellectual side of the movement which brought Mussolini into power has been somewhat neglected during the rough and ready first eight years of the regime, and it is with the idea of correcting this weakness that the grand council took its action.

At the same time efforts to enroll all university students under the banner of Fascism are to be increased under the direction of Augusto Turati, secretary of the Fascist party, and Fascists who have managed to find spare time for intellectual studies are invited to prove the quality of Fascist culture by producing works worthy of it.

While Fascism admittedly has been an impetuous and youthful movement which has always preferred action to words, the importance of the universities has been realized from the very first by Benito Mussolini, and he has carefully instructed as to what they might and might not teach. Teaching of liberal thoughts always has been enough to bring about the dismissal of a professor and apparently the idea of Fascism is to continue combating out those who are considered unworthy to teach the youth of new Italy.

MAKES VIGOROUS ATTACK

Right Hon. Winston Churchill, former Conservative Chancellor of the Exchequer, vigorously denounced the Government for pursuing the same policy Labor themselves had attacked when it was initiated by the Conservative Government. He deprecated the use of high principles "to disparage opponents, and then deserting the principles when they become inconvenient."

Miss Bondfield confessed she disliked the principle of borrowing for the fund, but the present circumstances, she hoped, would make the situation would now begin to adjust itself, and that figures of unemployed would diminish shortly.

Australian Settlers in Bad Plight

(Canadian Press Cable via Reuters)

MELBOURNE, Australia, March 28.—A request from the British Government for inquiry into the plight of Imperial settlers in the State of Victoria under 1923 settlement agreements, has aroused much feeling in Australia. It is even stated by a special correspondent of The Melbourne Herald that the reputation of the Commonwealth and of Victoria is at stake.

The Herald's correspondent reports that of the 740 settlers who came from Britain under the agreement, there are still about 240 holding blocks of land; but are all hopelessly in debt, and have little, if any, prospect of making good. The men allege they were brought to Australia by misleading statements, and that the late Government has not kept the terms of its agreement.

VOTES ON B.C. WHARVES ARE BEFORE HOUSE

Federal House, in Supply, Makes Grants for Work to Be Done in This Province

(Associated Press)

SAN FRANCISCO, March 28.—The Mackay Radio & Telegraph Company received word at 11:30 tonight from the coastal passenger steamer Humboldt that she had taken aboard thirty-eight members of the crew of the Japanese tanker Rhine Maru, which went aground in a fog near Point Sur.

OTHER VOTES PASS THROUGH QUICKLY

(Canadian Press)

OTTAWA, March 28.—With the exception of an hour spent on private bills, the House of Commons concentrated today on the conservation of harbor works, Government wharves, river improvements and the like. The House was in committee of supply and was dealing with the estimates of the Public Works Department, which were being piloted through by Hon. J. C. Elliott.

LITTLE OPPOSITION

The various votes met with very little opposition. Some exception was taken to the expenditures on the wharf at Rimouski, Que., but they were defended by Sir Eugene Flies, a member of that constituency, and passed. Criticisms of expenditures on Ontario harbors often rallied the support of the Conservative members of the House, but they were defeated by the Liberal majority.

B.C. Industries Giving Support To Trade Treaty

(Associated Press)

VANCOUVER, March 28.—Organization of a delegation representative of British Columbia's most important industries to protest to Ottawa to make representations in connection with the Australian trade treaty, is expected to take place on April 2, at a meeting here of the British Columbia division of the Canadian Manufacturers' Association.

The British Columbia Trade Commission which has just returned from Australia, will make its public report at that meeting. The industries chiefly interested are those of fish processing and pulp and paper.

Speaking as a representative of the fish processing industry, Mr. Richard Bell-Treving stated today that the continuance and extension of the Canada-Australia trade treaty was a matter of vital importance to British Columbia.

Mr. F. N. Youngman, a representative of the pulp and paper industry, said he, too, regarded the treaty as of exceptional importance to British Columbia.

(Canadian Press)

OTTAWA, Ont., March 28.—All four agreements for the return of natural resources to the provinces of Manitoba, Saskatchewan, Alberta and British Columbia are now before Parliament. The last agreement, that respecting Saskatchewan, was tabled in the House of Commons by Hon. Charles Stewart, Minister of the Interior, this afternoon.

TO MEET COMPETITION

With a high standard of living prevailing as far as Canada's population was concerned, the competition was a keen one. The possibility of invading the outside market in competition with certain countries that did not maintain as high a standard, would then appear to be one, not of lowering Canadian standards; but to work out some methods of cheapening the production in some form.

Will Have Difficult Task of Restoring Germany's Financial Condition to Stability

(Associated Press)

BERLIN, Germany, March 28.—The cry of the business parties for a "purely middle class" meaning capitalist, government, has been heard.

Unless appearances are deceptive, Herr Otto Heinrich Brüning will be the new German chancellor and head of a coalition of almost, if not entirely, bourgeois parties, whose chief aim will be to lighten the financial burdens on capital and business by reducing expenses for social purposes, such as unemployment doles.

MARKETING OF SHEEP IN B.C. TO BE STUDIED

Early Lambing Season Is Stressed as Imperative Necessity and Vital to Hold Trade

CONFERENCE IS CALLED IN APRIL

A movement is now on foot looking to the carrying into effect in the province of greater co-operation in the matter of marketing, particularly of sheep. Dr. W. R. Gunn, livestock commissioner of British Columbia, and Mr. W. W. Duncan, the markets commissioner, will meet with representatives of the sheep-breeders and of the packers, looking to endeavor to bring about improved conditions in connection with the industry.

It is announced that on April 5 this conference will be held in Vancouver at the Grosvenor Hotel, when representatives of the Department of Agriculture of the province will be present and will be joined by representatives not only of the sheep-breeders, but also of the packers with a view to seeing if anything can be done along the line of co-operative measures looking to the advantage of all concerned.

Dr. Gunn is a firm believer in the sheep-breeders of British Columbia, especially those on the coast, carrying out plans for the bringing in of the lambing season earlier, and thus being in a position to hold the local market, and even supply part of the outside requirements before the competition comes from the parts of the Dominion where the winters are such as to preclude, in a general way, early lambing. The weather conditions are such, he contends, as to allow the coast parts of British Columbia to lead the way in the production of early lambs.

Mr. Beatty Says Business Quiet Till Springtime

NEW YORK, March 28.—Mr. E. W. Beatty, president of the Canadian Pacific Railway, said yesterday that general business in Canada was quiet, but that he expected an improvement as Spring advanced. Earnings of the road continued substantially below those of a year ago, but Mr. Beatty said indications were that special income, which set a new 1929 mark in 1929, would remain at last year's figures. The Canadian Pacific had more than \$30,000,000 in cash on hand as of December 31, and no immediate financing is in prospect.

GASOLINE WAR IS EXTENDING

Prices Holding at Low Figure but Retailers Say They Are Not Suffering Loss

SEATTLE, March 28.—With gasoline prices at 14 and 15 cents a gallon at most retail stations, Seattle's gasoline war seemed to be entering a long lull as activities were broadened to take in most sections of the state. A few stations in Seattle were selling for 11 and 12 cents a gallon.

The war yesterday extended into the Grays Harbor district and a few days ago dropped on Wenatchee. Prices along main highways were held at from 14 to 16 cents a gallon throughout the Western portion of the state.

With wholesalers in most cases keeping actual prices secret, reporting a tank wagon price of 16 to 18 cents and a net of 14 cents, retailers said they were suffering no loss at present prices.

Seattle prices are said to be the lowest in the state, and with the exception of Portland, the lowest on the coast.

NO CRUCIFIXES IN COURT, SAYS JUDGE

Mr. Justice Dugas, of Quebec, Orders One to Be Taken From Walls of His Court

MONTREAL, March 28.—Mr. Justice Dugas, of the Superior Court, strongly protested yesterday against the placing of crucifixes in Quebec courtrooms, refusing to go on with a case because a crucifix had been placed in the room in which he was presiding. "As a silent protest against some of the furniture of this courtroom," said the judge, "this case is adjourned to my chamber."

The case concerning the place for crucifixes in Quebec courtrooms has been proceeding for some time and the Superior Court was reached Wednesday. Opposition from other quarters had been reported before Mr. Justice Dugas's action yesterday. The crucifixes are about four feet high and are fixed to the wall in such a position that witnesses directly face them while in the witness box.

The crucifix which was hung on the walls of the courtroom of Mr. Justice Dugas has been removed today.

It is understood Premier Taschereau has been communicating with the matter.

Mr. W. A. Irish Discharged Upon Perjury Charges

(Canadian Press)

WINNIPEG, March 28.—Two charges of perjury and one of conspiracy against Mr. William A. Irish, in connection with the Alexander MacDonald \$2,000,000 will case, were dismissed by police court this afternoon by Magistrate R. B. Graham.

The magistrate stated the Crown had failed to prove that the crime had been committed both wilfully and corruptly. He agreed with the contention of Mr. R. D. Guy, K.C., counsel for defence, that the case had been founded on a presumption that because documents had been signed the accused had knowledge of their contents. There was no evidence to this effect, he declared.

PLAN SURVEY OF ALASKA HIGHWAY

Chamber Directors Told That Preliminary Work Will Be Done From Aeroplane

Yesterday Mr. Reginald Hayward, M.P.P., informed the directors of the Victoria Chamber of Commerce that an aerial survey of the proposed Pacific Yukon Highway will take place this Summer. In answer to a communication from the Stewart Board of Trade, asking the support of the Victoria Chamber of Commerce in the survey of this highway, it was decided to inform the Stewart board that, although it would be impossible to start the survey until the project now that the House had risen, the chamber directors were prepared to support the preliminary survey, which would give some indication of the practicability of the scheme.

It was further decided at yesterday's meeting to form a special committee to investigate the prices of bread in Victoria. The Esquimalt Board of Trade had sent a communication, asking that a delegation interview the Government on the matter, but the directors felt that a thorough investigation of the matter would be advisable before any definite action was taken.

Mr. George I. Warren reported that the order of the Railway Board for the inspection of C.P.R. and C.N.R. railway tracks had not yet been complied with, and it was decided that this fact should be pointed out to the Board of Railway Commissioners without delay.

A letter from Mr. T. O. MacKay pointed out that business offices in Vancouver get a mail delivery as early as 8 o'clock in the morning, while those of Victoria do not receive their letters until about 9:30 a.m., and it was decided that a representation should be made to the postal authorities, asking if this state of affairs could not be remedied.

WALLIS GIVEN SHORT REMAND

Preliminary Hearings in City Police Court Are Set for Next Monday and Tuesday

Stanley E. Wallis and A. T. Weight, charged with conspiring to defraud, were remanded until Tuesday by Magistrate George Jay in the city police court yesterday.

Rest for the remand, made by City Prosecutor C. L. Harrison, was opposed by Mr. Stuart Henderson, counsel for Wallis, and by Mr. R. H. Harvey, counsel for Weight. Harrison, however, held that the case was a most serious one and not to be dealt with hastily or without due preparation.

Wallis was also remanded until Monday for hearing on two charges of forgery.

MORE STRINGENT RULES PREVAIL

Certification of Seed Potatoes Is Tightened Up by Dominion Order in Council

A very important step has been taken by the Dominion Government in the interests of certified seed potatoes. An order-in-council has been passed at Ottawa, as briefly reported, amending the regulations under the Destructive Insect and Plant Act, which requires that only Government certified seed potatoes can now be sold as seed within the Dominion. It is further provided by the order-in-council that second grade—small sized, one and one-half to three ounces, is made legal—the original grade, Extra No. 1, remaining as before.

Information to this effect has just reached the Department of Agriculture in this province, the order-in-council passed at Ottawa being dated March 12, 1930.

The order-in-council as it affects the situation regarding potatoes reads as follows: "In the case of potatoes, no person shall be allowed to sell or offer, advertise, expose or hold in possession for sale any potatoes in any manner or form described or designated as certified, inspected, registered, selected, disease free or otherwise indicating their suitability for seed or seed purposes, unless such potatoes have been inspected in the field and after harvest by an inspector under the Destructive Insect and Plant Act, and have been found sufficiently vigorous and free from serious diseases to warrant them being classed into either of the two following grades, viz.: Certified Seed Potatoes, Grade Extra No. 1, or Certified Seed Potatoes, Grade Small Sized (only one and one-half to three ounces only)."

It is set out in the order-in-council that the containers of the potatoes so classified must bear the authorized official tag issued by an inspector, and bearing the grower's name and number.

ORGANIZE WORK FOR LAST UNIT

Additional Jordan River Hydro-Electric Development Will Be Pressed By B.C.E.R. Co.

CONTRACT FOR PIERS AWARDED

With the completion yesterday of the wharf at Jordan River, steps are being taken to press the installation of the penstock for the fourth unit of 18,000 horsepower capacity at the power house of the B.C. Electric Railway Company.

The necessary work incidental to the placing in position of the pipe being fabricated at the Vancouver Engineering Works will be taken in hand by Messrs. Hodgson, King & Marble, of Vancouver. This firm will operate two contracts. It has a subcontract from the engineering works for the prestressing necessary to carry the pipe during construction, after delivery on the ground between the Forebay reservoir and the power house. In addition the B.C. Electric Railway has just awarded a contract to the same company to build the supporting piers and anchors, upon which the pipe will rest permanently, entailing a large amount of concrete work.

For the concrete making the B.C. Electric Railway will lease its sand and gravel plant on the ground. By day labor will be carried out the necessary grading along the route, prior to the supports being erected for the steel pipe.

This pipe line will follow closely the contour of the land between the Forebay reservoir and the power house, a distance of nearly two miles, and a difference in elevation of 1,150 feet. The B.C. Electric Railway is providing camp facilities, and in addition to the grading mentioned above, will install the machinery in the power house on reinforced concrete foundations. The contractors will be operating early next month, for the completion of the construction of the penstock, the commencement of pipe delivery late in April from Vancouver. Meanwhile, additional plant and equipment is being assembled.

Tactical exercises, in which artillery officers of Vancouver Island and Lower Mainland units are participating, are now in progress at Chilliwack and will continue over the week-end. A number of local officers left for the scene of the manoeuvres Thursday night, and yesterday afternoon a Vicker's Vidette seaplane from the Jericho Beach station, in charge of Squadron Leader McLeod, arrived at the inner harbor float and embarked Major T. Craig, R.C.A., from Work Point Barracks, taking off at 3 o'clock direct for Chilliwack, where they expected to land, if all went well, in Coultas Lake, two miles from their objective, shortly after 5 o'clock. Some sixty officers in all will attend the exercises, and co-operating with them a number of planes from the Jericho station will participate.

Electric Commission at a price of \$21,000,000. Premier G. H. Ferguson, in reply to a question by Mr. W. E. N. Sinclair, K.C., Liberal leader, said the Government was dealing with Nesbitt & Thompson, Limited, of Montreal, who hold a majority interest in the company.

So far, he said, there has been no meeting of the directors or shareholders to ratify the purchase. This explained, he pointed out, the surprise registered by several company directors in Hamilton when they learned of the introduction of the bill.

FRASER VALLEY IS STATED T.B. FREE

VANCOUVER, March 28.—The Fraser Valley is now entitled to be classed a T.B.-free area. The result just concluded of cattle for bovine tuberculosis has shown that only 37 per cent were reactors. For a district to obtain that classification, the number of reactors must be less than half of 1 per cent. Of 50,748 head tested, but 183 reactors were found.

Problem Affects Historic Principality

PRINCE Pierre and Princess Charlotte of the Principality of Monaco have been separated by the decree of a special court held in camera in Paris, and at which former Premier Raymond Poincare acted as special referee. Europe awaits news from Monaco as to whether the decision meets with the approval of Prince Louis, present ruler of Monaco and father-in-law of the separated prince. The court decree recognizes Prince Rainer, seven-year-old son of the separated couple, as the legitimate heir to the throne of the tiny principality. The photographs here show: (1) View of the famous casino at Monte Carlo, in the heart of the Principality of Monaco. HOthouse TOMATOES ON MARKET

First Shipment of Local
Produce Is Feature of
Wholesale Mart at
Midweek

UTTER ARRIVES FROM ANTIPODES

Wholesale and retail produce trades continued at a brisk pace yesterday with important items being disposed of at reasonable prices. Although some commodities maintained their prices, others were subject to sharp changes. Dealers reported that the supply was plentiful and trading above the average.

The feature of the market was the arrival of the initial shipment of local hothouse tomatoes, which were reported in fine condition and of a good quality. The shipments were received during the middle of the week from the local greenhouses. Other consignments are expected at the beginning of next week. They are wholesaling at \$12 per crate, which is considered reasonable for first shipments. As the supply accumulates, the prices will, no doubt, decline.

Besides the local produce, another large consignment of fresh asparagus arrived from California along with a shipment of mixed greens. New potatoes arrived from Florida and are wholesaling at 12 cents per pound or \$5.50 per box. Asparagus are being made to support the as-

paragus market through jobbing channels.

Navel oranges, Arizona grapefruit, Florida grapefruit, Mediterranean sweets, coconuts, Emperor grapes, Winesap apples, Mexican tomatoes, all showed slight increases in prices. The majority of greens advanced with celery going as high as \$8 per case and imported lettuce reaching \$5.25. Cabbage went up 2 1/2 cents, while California green peas advanced to 26 cents per pound—a little steep at this time of the year. Sprouts went off the market.

Whole egg prices dropped one cent on each grade, followed by a similar decline on the retail mart. The wholesalers are quoting the following prices: Fresh extras, case lots, per dozen, 39 cents; fresh firsts, case lots, per dozen, 27 cents; and fresh pullet, 25 cents a dozen. Retail prices follow: Extras, 36¢; firsts, 34¢; pullet extras, 32¢ a dozen.

The bulk of the butter trade is supplied by the regular shipments received from New Zealand. When the R.M.M.s. Aorangi arrived yesterday morning at Rihet Pier, included in her cargo were 2,500 boxes of butter from the Antipodes. This consignment will help supply the large demand along with the stocks imported from New Zealand, New South Wales, and other shipping points.

Injunction Halts Construction of Kresge Building

An Interim Injunction halting work on the Kresge building at the corner of Fort and Douglas Streets, was issued yesterday by Mr. Justice Gregory on application of Mr. H. H. Shandley on behalf of Christy, Hall & Company, owners of the adjoining building on Fort Street.

On Thursday argument will be heard as to the continuance of the injunction pending the trial of a suit brought by Christy, Hall & Company and the contractors, Smith Bros. & Wilson. Result Will Be Substantial Aid for
North China Famine
Relief Fund

The First Baptist Church was packed to capacity last night, when under the auspices of the Chinese Christian Union Association, a splendid concert was given in aid of the relief fund for the North China famine-swept provinces. Every Chinese Christian organization in the city was well represented, and Rev. B. D. Li acted as chairman, welcoming the audience in a few words, and pointing out that, during the Lenten season, it was particularly to the point to make every charitable effort possible.

An excellent programme had been arranged which included the band of the Salvation Army, under the direction of Adjutant Merritt, United Church girls, Freemason girls and Anglican Mission pupils combined to give a number of excellent displays of drilling, dancing, singing and physical exercises, while the children's orchestra was particularly popular.

A delightful tableau, "Home Sweet Home," was given by the Presbyterian girls, while Miss Goo and Master Love also contributed to the programme.

Two plays in Chinese were given, the first being based upon an interesting Chinese allegorical theme.

A diplomat, while on a delicate mission to an unfriendly sovereign, sees a stork attacking a clam. The bird finally gets its beak wedged in the clam's shell, and both are taken home for a fisherman's supper.

Impressed with the futility of forcible measures, which only succeeded in landing the contestant in the fisherman's pot, the diplomat uses his experience to paint a picture of the joys of peace, which brings his mission to a successful conclusion.

The old Chinese dresses in this play were particularly effective, and the stork and the clam were received with rounds of applause.

The second of the two plays, both of which were produced by the Chinese Canadian Club, was of modern date, and dealt with the need for charity, and the efforts of a Chinese family to assist their unfortunate countrymen in the famine-swept areas of Northern China.

HART HOUSE SINGERS ARE HEARD HERE

Presentation of Fine Work by Frederick Delius Is Given by Notable Organization

QUARTETTE WINS ADMIRATION

Canada's leading ensemble of string instruments, the Hart House Quartette, was welcomed by a capacity audience at the Empress Hotel last evening on the occasion of its second visit to the city.

Of quite outstanding interest in a programme which was, perhaps, slightly limited as to material, owing to the fact that the Canadian Pacific Railway, which is sponsoring the series of six recitals this season, has confined the material to British and Canadian music.

The beautiful quartette by Frederick Delius, a festival of whose music was held in England just a few months ago. It was a great privilege to be able to hear some of this composer's work here, and the quartette presented it in a very satisfying manner, revealing its wistful, atmospheric qualities with great sympathy and understanding.

While the work abounds in the modern dissonance, the quartette reverts to charming sweetness of harmony, and the effect of flowing color, heightened here and there by fleeting somberness or emphasis of unrelated matter, was very fine and quite in keeping with what music-lovers in this remote part of the world had been led to expect.

Delius in this quartette has made use of the basses in a noticeable way. This, also, one has read, is a characteristic. And it was, in fact, the basses who were the most persistent, the essence of the whole work's charm lay in the movement before the last, when the instruments played perfect muted strings. The remote, delicately-balanced emotional effect of this was very satisfying, and was the admiration of the audience.

The administration of the quartette players for the beautiful delicacy of its proportions, its silvery lightness, its fine union, their manner of playing, and the rhythmic, as it were, in the concluding "bright elastic" movement, the quartette was further admiration.

If there was any fault in the quartette, it was in the administration of the work. It was a slight deadness in the pizzicato tone, and of a little tendency to monotony. Even the most delicate passages must possess values.

The remainder of the programme was built up of slight material. All the numbers were very charming, however. Among the most delightful were, in the group of "Old Traditional Tunes," that entitled "The Shepherd Under the Snow."

It was an example of a balanced legato, played in a gentle, silky way which drew pictures. The second violin played an important part in "The Shepherd Under the Snow."

"Now," another of the same group (arranged by Gerald Williams), an example of delicate animation. Infinitely delicate and animated, full of individual glissandos, the violin was the exquisite little Frank Bridge arrangement for quartette of "Cherry Ripe."

In the same group was another by Gerald Williams, "The Shepherd Under the Snow," appearing as "Irish Air" in a pleasing form. The viola had a distinguished tone in some phrases of this. "Molly on the Shore," despite its rather hackneyed appearance, was popular because of the artistic treatment which it had at the hands of the quartette. As an encore they played "Drink to Me Only."

The closing group held a special interest as being the composition of John B. McMillan, the present principal of the Royal Academy of Music, in which office he succeeded Sir Alexander Mackenzie. The work in modernistic and elegant style, "The Sand Dunes," played on muted strings, had a haunting quality. "The Jolly Oyster Gatherers" was notable for its pleasant rhythmic emphasis, altering from the musing to the sauntering and infectiously bright.

Knox and Rev. Mr. McKinnon tendered thanks to the different speakers, and the evening closed with the singing of the doxology.

Veteran Jack McAuliffe Hits Floor and Stays There After Two Minutes of Mixing

DENVER, Colo., March 28.—Primo Carnera's thirteenth knockout victim, Jack McAuliffe, of Detroit, fell before the giant Italian after two minutes and eighteen seconds of lightning in a headline bout that was set for ten rounds here tonight. A right cross to the chin sent McAuliffe to the canvas for the count. He landed partly outside the ring and made but slight effort to return.

McAuliffe started to carry the fight to the Italian giant, but his efforts were short-lived. Carnera easily got in with a short right uppercut, and the thirteenth victim rolled over backwards. He took a count of nine before rising.

Another brief skirmish and the fight was over as Carnera crossed to the chin for the knockout.

A crowd of 6,500 paid approximately \$15,000, not so much to see a fight as for a glimpse at the huge bulk that is Carnera.

Single Point Gives Leiper Carpet Title

Scores 21-20 Victory Over Mitchell in Final of Championship Singles to Capture Honors

McCAGHEY WINS NOVICE HONORS

After holding J. Leiper to a 20-all score to the twenty-eighth end, Mitchell slipped slightly in the next end, and his opponent jumped at the opportunity to bowl the winning point to win out by a 21-20 score in the final round of the Capital City and District Carpet Bowling tournament championship singles.

By his victory, Leiper succeeds Nelson as champion for 1930.

Leiper's path to victory was not strewn with roses by any means, for he was forced to eliminate some of the best competitors in the meet, and his own Nelson, the defending champion, in the semi-final round, which was played during the early part of last evening, made him a favorite when he took the table against Mitchell.

The final match, which made Leiper the 1930 monarch, was the last of the best witnessed in the tournament with the winner in doubt until the last shot was fired. The players fought neck and neck from the beginning, but Leiper managed to gain the extra point in the twenty-ninth end to win the match and championship.

Leiper also figured in the open doubles title by pairing with Scroggs to defeat McMillan and Nelson in the final round, 18-11. The game was closely fought throughout, but Leiper and Scroggs were playing their best in the final round.

The score is no indication of the match as all four competitors showed fine form, with the winning pair holding a slight advantage.

The grand finale of the league will be held in the Foresters Hall on April 5 in the way of a dance and distribution of trophies. When the last shot was bowled last night, the greatest tourney in the history of the association terminated.

Some Fashion Forecasts

Differences Mark Fashions for Day and Evening Wear
—New Materials to Be Used for Summer Dresses

In the Callot collection of dresses line is carefully studied, says an article in The Times (London). The princess robe is most in fashion for the evening; afternoon dresses have semi-fitting bodices of high waist lines and flounced skirts reaching to the ankle, and for simpler afternoon frocks and morning costumes skirts are short, reaching beyond the knees, with some fullness. With long coats and wraps there are short capes. On many light summer dresses is the bolero. Irregular hems form points or wide scallops, and the straight front edges of capes and coats are cut out into small patterns. Gossamer and pleats, tucks and ribbing, give shape and fullness. The hip line is usually along the clifton and lace dresses hip lines dip low at the back. The dipping line indeed is firmly asserted.

and sleeves are worn under long black fur or cloth coats; the little black bonnet may be trimmed with ermine. Bright red dresses are worn with black coats, and woolen crepes make simple afternoon frocks. There is always a touch of white lingerie at the neck and wrists. With tailor-made white cotton or silk pique is the fashion.

Chatterer Changes His Mind

—By THORNTON W. BURGESS

"This strange how much you'll often find dependent on a change of mind. —Old Mother Nature."

Chatterer the Red Squirrel thinks himself a smart fellow. He wants other people to think him very smart. It upset him a whole lot to be unable to find out where Whitefoot the Wood Mouse was living. He wouldn't admit to the Whitefoot was smart enough to keep his home a secret from them. So he spent more time hunting for Whitefoot's home than anyone knew of.

One day he happened to be poking around the bushes on the edge of the Green Forest, in the hope that he might find a hole, but not two hidden under the dead leaves. Finally he looked up and there over his head was a big wasp's nest—a great grey globe. Chatterer knew what it was at once. He had seen wasps' nests before. He knew all about the hot-tempered little people that built them. He knew that in winter there was nothing to fear from them.

"I believe I'll climb up there and have a look at that nest," said Chatterer to himself. "I'd like to see what it is like inside. There is nothing to be afraid of now. If any wasps stayed in that nest all winter they are either dead by this time or asleep, and I had just as soon have two or three to eat."

So Chatterer started to climb up to the nest. But he had hardly left the ground when another wasp came to him and he stopped to consider it. "It is pretty warm today," thought he, "and some insects get to stirring around on a warm day like this. I wouldn't like to find a wasp that had come to life. They certainly can sting. One sting me once and I don't want to be stung again. Of course, there may not be any wasps in there. I don't suppose there are. It is better to play safe than to be sorry. However, we shall have some cold days yet and a cold day

The Expectant Mother

Health Service of the Canadian Medical Association

The health of the expectant mother is a matter of both personal and national importance. The health of future Canadians is bound up in this question, because national health is, in the final analysis, the sum total of individual health, and individual health largely depends upon a proper start in life.

Pregnancy may be called a normal physiological function, but it must be recognized that, in order to render it safe and reasonably comfortable, special care is required. The fact cannot be overlooked that, in the performance of this function, too many mothers suffer, unduly, some, as a result, being more or less incapacitated, and others losing their lives.

The expectant mother requires supervision—what is usually called prenatal care. Such care makes for greater comfort and security. It should begin early in pregnancy and continue throughout. There are many things concerning which the expectant mother needs instruction and which are of great importance, not only to herself but to her child.

The success achieved by the Winnipeg General Hospital prenatal clinic is one of many examples of what can be accomplished by proper prenatal care. This particular clinic has, since its inception, cared for over two thousand cases. There have only been two maternal deaths in this group.

It is quite true that every year a large number of women bring healthy babies into the world with a minimum to themselves of suffering and illness. Knowing this, other women are apt to think that all the talk about the need for prenatal care and proper care at confinement is far-fetched. This view is not sound because it overlooks the number of women who become ill, and some of whom die from conditions which could have been prevented had proper supervision and care been secured during pregnancy and at confinement.

If maternity is to be rendered free from danger, it must be directed; it must be kept in the normal safe channel guided by those trained in giving supervision and direction. Otherwise, disaster may come from drifting into dangerous currents, not only to themselves of suffering and illness, but to their children.

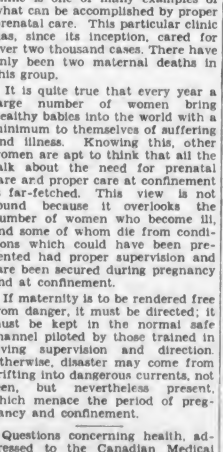

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

The occupants of the prior car of the limited were startled by the abrupt entrance of two masked bandits. "Trow yer hands," commanded the bigger of the two, "we're gonna rob all the cents and kias all the gals."

CAR MANUFACTURE SHOWN BY FILMS AT FORD AGENCY

One hundred and forty-nine mechanics, salesmen, service men and their friends saw a four-reel instructive motion picture displayed at the National Motor Co., Ltd., Ford salesroom last evening.

In opening the "show," Mr. D. P. Aitchison, sales manager of the National Motor Company, introduced Mr. Arnold Lucas, sales clinic instructor for the Ford Motor Company at Vancouver, who explained the various views thrown upon the screen.

Commencing with a reel entitled "Panoramic Faces," being pictures of many of Hollywood's stars posing in Model "A" Fords, the films showed all the processes in building automobiles in the huge plant at Ford, Ontario. Particular attention was given to the accuracy with which various parts are machined.

Mr. Lucas explained that each crankshaft going into an engine was statically and dynamically balanced to avoid any whip motion when revolving. Each of the thirty-eight inspections given crankshafts was shown in detail upon the screen, also the machining of piston pins to 2-10,000 of an inch accuracy, balancing flywheels, weighing and testing pistons before assembly.

At the conclusion of the motion picture, Mr. G. F. Pike, commercial division head of the Ford branch at Vancouver, gave a talk on commercial selling features, illustrating the various points with several models displayed in the salesroom.

Dr. and Mrs. A. F. Barton were hosts to sixty-five people who attended the progressive whist party on Monday, in aid of the Progressive Thought Temple funds, which they held at the home "Hopedene." The rooms were decorated with Spring flowers and carnations of lovely shades. The following were the prize winners: Mrs. Hewitt (playing gentleman), gentlemen's first, and Mr. Pears, gentlemen's consolation; Mrs. Thomson, ladies' first, and Mrs. Knight, ladies' consolation. Refreshments were served by the hostess at the conclusion of the games after which community singing was much enjoyed. Mr. Frank Ivings and Mrs. Fletcher contributed a solo and Dr. Barton gave a recitation which was much applauded. Dr. and Mrs. Barton

Ambassador's Wife Entertained in London

LONDON, Mar. 28.—Lady Isabella Howard, wife of the former British Ambassador to the United States, was the guest of honor at a luncheon of the American Women's Club on Wednesday, welcoming her back to England.

Mrs. Philip Snowden, Mrs. Charles G. Dawes, Lady Bryce, wife of the former British Ambassador to the United States, and Mrs. Currier Brown, president of the club. All paid tribute to the tact and diplomacy of Lady Isabella during the year she was in Washington.

Mrs. Snowden said that Sir Eme Howard and Lady Isabella had played a large part in achievement of the Kellogg pact and they had done a great deal toward cementing friendship between Great Britain and the United States.

PENSIONERS' W.A.
The Ladies' Auxiliary of the Canadian Pensioners' Association held its usual general meeting last Thursday evening. Applications for membership were presented and the new members sworn in. Nursing Sister Adie Giesch told of how the C.P.A. had secured evidence in her case and presented it to the Hon. Dr. King, Minister of Pensions and Health, and that through the expert counsel of Dr. King, her case had been forwarded to the proper authorities.

Another item worthy of note was that the Ladies' Auxiliary of the C.P.A. wished Mr. G. H. Sedger, official soldiers' adviser, every success in his undertakings at the Soldiers' Advocate convention to be held shortly at Ottawa. The members also expressed their satisfaction over the work that the association representatives were undertaking at Ottawa at the present time.

Discussions turned towards the planning of another great Spring social. It was resolved that Mrs. Milligan would hold a white drive at her home, 1272 Centre Road, near the end of Fernwood street car line, on April 7, at 8:30 o'clock, prizes to be given. All association members and friends are cordially invited.

The young poet offered the editor a poem which, somehow seemed very familiar to the editor. "Did you write this unsaid?" the editor asked. "I did," replied the poet. "Then I am very glad to meet you, Mr. William Shakespeare. I was under the impression you had died years ago."

The gown illustrates how suave yet daring a gown may be, as it is cut on severely slender lines and is created of lustrous red lace. A band of gold tulle which separates the long bodice from the wide flounce serves to accent the brilliant effect of the model.

It is possible to lose money in other places besides the stock market. Recently Moran and Mack had a few minutes' rest on the lot between shots and Mack was telling a sad story about his bad luck on the race track. Moran asked: "How come you always lost at the races and always win when you play cards?"

In a burst of confidence Mack replied: "Don't you see, that's simple. I don't shuffle the horses."

Suntan Vogue Is Ended

SUNBACK bathing suits were the rule last year but it was discovered that constant exposure to the sun roughens the skin and scientists revealed that the style encouraged overexposure of the head and spine to the direct rays of the sun. This year beach pajamas, designed to cover the back and shoulders, are the vogue. Both styles are shown in the picture above, taken in Miami Beach, Fla. Fashion's edict, women are now depending less on exposure to the sun as a means of absorbing Vitamin D.

LADY WILLINGDON IS GIVEN HONOR

Honorary Membership Badges Presented by Her Excellency to Red Cross Workers

TORONTO, March 28.—Recognition of outstanding and exceptional voluntary service to the Red Cross was extended today by Lady Willingdon, who attended the annual meeting of the Central Council of the Canadian Red Cross Society, of which she is president.

Badges of honorary membership were presented by Her Excellency to Mrs. P. McManus, of Halifax, N.S., and Mr. A. W. Rowan, of Saint John, N.B., for their service at the Canadian Red Cross seaport nurseries, and to Miss Frances Campbell, of Toronto, in recognition of the services in connection with the administration of the provincial work.

A posthumous award, honorary councillor, was made in respect of Dr. James Wilson Robertson, C.M.O., of Ottawa, who died recently, after many years as chairman of the national executive committee and central council.

Following the presentations, Her Excellency was unanimously re-elected president. Mr. H. E. Mahon, Halifax, was re-elected chairman of the central council.

Tea at Qualicum

QUALICUM BEACH, March 28.—On Thursday afternoon a very delightful tea was given by Mrs. Noel Money at her home, in aid of St. Mark's Guild. The weather was very fine, and a large number of people attended. The dining-room looked lovely with the Spring flowers, the large centre table having a big silver bowl of daffodils and foliage, whilst the small tables arranged round the room had low bowls of violets and crocuses. The drawing-room was also very springlike with its tall vases of flowers and flowering plants. In the hall the home cooking table also had a table of lovely plants of various kinds found ready purchasers.

During the afternoon a competition caused many of the guests to put on their thinking caps, and eventually the first prize was awarded to Mrs. J. Smythe, second to Mrs. H. Sawyer, and third to Mrs. C. Foster. A beautiful cyclamen plant was won by Mrs. H. Sawyer. Those in charge of the stalls were Mrs. W. Thrall and Mrs. P. Robertson. Mrs. Campbell Davidson and Mrs. C. Bailey arranged the competition.

Mrs. J. Sanson, Mrs. J. Smyth, Mrs. G. Aldous, Miss H. Jarvis and Miss Janey Robertson served the tea. The afternoon proved a great success both socially and financially.

BRANCH OBTAINS PENSIONS AWARDS
The Britannia Branch, Canadian Legion, B.E.S.L., continued its good work in connection with pension matters and adjustments for its members when another 100 per cent award was obtained, the second maximum gained in the last few months, according to the statement tendered by Mr. J. Holmes, chairman of the pensions committee, at the executive meeting held last night in the Fairbanks-Morse Building.

Mr. Holmes stated that the publicity given to the pension matters in Parliament had undoubtedly stimulated interest among the ex-service men who have considered that they have been badly treated. The chairman also stated that his committee is receiving cases each day.

A somewhat unusual case has just been closed by the branch. It is that of a South African veteran. It does not seem to be generally known, the chairman observed, that South African War pensions for Canadian troops are still paid by the Imperial authorities and any supplementary grant from the Canadian Government, based on the medical assessment made by the Imperial Government, and therefore the branch has been able to obtain an adequate adjustment without disturbing the grant made by the royal warrant.

Mr. Holmes observed that this is a criterion of what the legion will be called upon to do for ex-service men whose pensions are still pending for men who fought in a war thirty years ago.

"The branch, I think, finds the pensions board willing to be fair and just in any case present, though each case must, of course, be dealt with on its own merits. The board has been very good in the matter of treatment and adjustment so far as we are concerned," Mr. Holmes concluded.

The Life of MARY BAKER EDDY

Discoverer and Founder of Christian Science

By SYBIL WILBUR

An Authentic Biography Mrs. Eddy's life is here depicted with illuminating clearness. The author, carefully avoiding invention, has presented the facts in a refreshing manner. Miss Wilbur was not a Christian Scientist when she wrote this biography for publication in a magazine of general circulation.

Nanking Gives Protection to Mission College

ADVICE received this week from Nanking, China, give particulars of the settlement of the strike at the Christian University of Shanghai, an account of which was given in a recent number of The Colonist. This strike, which compelled the closing of the arts and theological departments as well as the hospital, was fomented by the Tang Pu or Kuomintang Council working through the labor union, and was evidently aimed at appropriating the valuable buildings for non-Christian uses. The affair was looked upon as rather a serious case, it is stated by the vice-principal, Dr. R. T. Shields, and the British and American consuls and the mission people are gratified at the result.

Jimmy McLarnin Wins Decision Over Thompson by Slender Margin

Fighting Vancouver Boy Demonstrates Games-ness in Getting Call Over Negro — Packed House Watches Bout at Madison Square

MADISON SQUARE GARDEN, N.Y., March 28.—Jimmy McLarnin, the stout little fighting man from Vancouver, got the decision here tonight over young Jack Thompson, the vege of the referee, Jimmy Crowley, and Judges Harold Barnes and George LeCrown. The crowd which packed the Garden as is usually the case when McLarnin fights, received the verdict according to its mood. Some of the customers applauded while others jeered and booed. On my own score card the fight was a draw.

JIMMY McLARNIN

McLarnin is known as the hardest right-hand puncher in the game, but early in the proceedings it became evident that something had happened to his best weapon of offense.

From the fifth round on he fought mainly with his left hand, and from the seventh round used practically nothing for offense purposes except his southpaw. He would blurt with his right and hit with the side of his glove, but he never really shot that right with full power behind it.

HAND BADLY SWOLLEN

I met McLarnin after the bout and found his right hand badly swollen with a hard lump between the base of the first finger and base of the thumb. It looked to an innocent bystander as if Jimmy might have either driven his knuckles back on Thompson's hand or as if he had cracked and jammed up some of them.

"I have hurt that hand several times," he said to me, "I hurt it in the Mandell fight, but thought it was all right tonight. It was not. I hurt it again in the very first round and it kept getting more and more painful until finally it was almost impossible to use it at all for punching."

"Thompson fought me a good fight, but those rushes of his that may have looked dangerous from outside were merely furies. Even when I was fighting with one hand he didn't hurt me much, although there is no denying that he hit me several good solid punches which anyone would have felt."

And young Jack Thompson is a good boy. When he first came out he looked like a rather frightened negro, but if he was frightened he soon got over it. As early as the

NEGRO ON DEFENSE

In the third round Jimmy got a couple of clean shots at Thompson and the California negro went back on the defensive. In the fourth round also Thompson did little but wait and counter. But in the fifth round Thompson came on again and had all the better of it.

In this round, and again in the seventh, McLarnin was warned for hitting. All these punches were delivered with his left hand. Jimmy apparently is neither a left-hand puncher nor a body puncher. He boxes fairly wide open and his right hand is not only his attack but his defense.

I think that Thompson sensed somewhere midway in the battle that McLarnin's heaviest gun was pulled, because from that time on he tore in with constantly growing confidence. In spite of all this, McLarnin took the ninth round practically one-handed.

After that he had little except courage to offer in the final session. He came out gamely to face a savage Thompson, who was set and eager for the kill. He knew that McLarnin could not hurt him and he had a hot desire to knock Jimmy out. It would have meant much for Thompson to go in there with the betting 5 to 1 against him and come out leaving his opponent on the floor.

SHOWS GAMESNESS

Thompson rushed McLarnin furiously, swinging rights and lefts and frequently landing. But Jimmy refused to go down. Like Horatius, the brave heart within him "bore bravely up his chin."

Jimmy took all that Thompson had to give him and he was not an exhibition of courage. And let me say here that I do not believe for a moment that during this bout McLarnin hit too intentionally at any time or that he tried to foul out when he found his right hand useless. The Vancouver boy is too game for any such tactics.

He may have gotten a shade the best of the decision but the judges probably were influenced by the fact that McLarnin did most of the leading and forced the fighting two-thirds of the way.

Paul Runyan Gives Steady Display to Win North-South Open—Frank Walsh Second

ROSS SOMERVILLE LEADS AMATEURS

PINEHURST, N.C., March 28.—With a large crowd following about him, Paul Runyan, twenty-one-year-old assistant professional from Bloomfield, N.J., today shot near perfect golf to win the North-South open golf tournament here.

Runyan pounced out rounds of 72 and 70 today to post a total of 142 and score a decisive victory over his more experienced rivals.

Runyan, with the exception of a bad second round, when he soared to 77, shot steady near-par golf throughout. His four round scores of 72, 77, 72, 70 show the consistency of his game.

WALSH COLLECTS \$1,000

Two strokes behind the winner, Frank Walsh, ruddy-faced Chicago pro, finished with a 69 for a gross score of 292. He collected \$1,000, second prize money. His four-round score reads 75, 72, 71, 69.

Joe Turnesa, the Elmford, N.Y., cash performer, Tommy Hinot, of Detroit, and Billy Burke, of Greenwich, Conn., were tied for third with cards of 294.

Tony Manero, who won the California Island title, was alone at 295 in sixth place, while C. Ross Somerville, of London, Ont., was low scorer among the half-dozen amateurs entered, with 296. He had distinguished professional company at this figure in Ed Dudley, of Wilmington, Del.

Horton Smith, the defending champion, was six strokes from the leader.

RANGERS PICKED TO WIN HONORS

(Canadian Press)

LONDON, March 28.—With the cup competitions out of the way, except the finals, English and Scottish League soccer teams will now settle down to deciding who will be champions and who will be demoted in the various divisions.

In the English First Division the Wednesday, knocked out of the cup games, have a fine chance to take the league championships. At present they are tied on points with Derby County, but have four games in hand. At the bottom of the table are Everton, not so long ago one of the most powerful teams in England, and Grimsby. The latter only came up from the Second Division this year. Everton are fanatically buying players in an effort to bolster up their side and win enough games to keep away from relegation. Newcastle United have also fallen into a trap and are only a point above Everton.

In the Second Division a battle royal is in progress between Oldham Athletic and Blackpool, both tied in points at the top of the table, with Oldham having a game in hand. Two points behind Chelsea, Swansea Town and Bristol City are bringing up the rear in the Second Division.

In the Northern Section of the Third Division, Bradford leads from Plymouth Argyle, but the latter have played less matches. In the Northern Section, Port Vale are the pace setters, with one less game in their played column than Stockport County, runners-up.

RANGERS FAVORED

In Scotland, Rangers should easily take the First Division championship and are picked also to win the Scottish Football Association Cup. St. Johnstone is almost sure to be demoted and Dundee United will likely go down with them. East Fife and Leith Athletic look to be sure for promotion from the Second Division.

Both leaders in the English First Division have tough contracts on Saturday. The Wednesday are at home to West Ham United, while Derby County entertain Huddersfield Town. Oldham Athletic should pick up points, as they meet Swansea Town. Blackpool must go to Hull City and meet the team that was knocked out of the English Cup ties on Wednesday by Arsenal.

Rangers have been drawn in the Clyde at Ibrox Park and should win easily.

TOM ALLEY TO BATTLE KRUSE

Heavyweight Grapplers Will Headline Show at Duncan Tonight—Olson to Meet Brooks

VICTORIA BOYS IN OPENING BOUT

Tom Alley, Australian grappler, and Bob Kruse, Portland, will appear in the main event of the wrestling card to be presented at Duncan tonight. The Portlanders' shoulders were pinned to the mat

by Alley, "down under" in 1928, but since that time Kruse has gone ahead in leaps and bounds. Today, the youthful Portland exponent of the grappling game is favored to reverse the decision. The bout is scheduled to go eight ten-minute rounds, or the best two out of three falls.

Tarzan, Victoria's "Iron Man," and Harry Olson, Oakland, will meet in the semi-windup of five rounds, each of eight minutes duration. Olson has beaten a number of good men and is expected to unloose a bag of tricks that will prove too much for the Victorian.

Young Bull Bernie and Morry Crump, Victoria lads, will open the show in the three-round preliminary bout. The first battle will start at 9 o'clock, with F. B. Richardson, secretary of the Tillamook Athletic Club, Victoria, as referee.

Special buses will leave the Grey Line Depot, Yates Street, at 5:45 o'clock tonight, for the Duncan show. It is expected that a number of local fans will climb the Malahat to see Kruse fighting for revenge over the Australian.

Gustave Desrivieres Breaks Up Longest Game in History of National League by Caging Rubber After Two Hours and Eight Minutes of Grueling Hockey

13,000 Fans Cheer Lone Canadian Hope for Stanley Cup in Victory

MONTREAL, Que., March 28.—After two hours and eight minutes of grueling struggle, Canadiens, Montreal's sole hope in the Stanley Cup series, defeated New York Rangers 2-1 here tonight before a crowd of over thirteen thousand people. After nearly five periods of overtime, Gustave Desrivieres, formerly of Winnipeg, Canuck rookie wingman, took a pass from Mantha to flip the puck over Roach to drive the Canadiens' supporters wild.

Never in the history of the National Hockey League has so long a struggle been fought. It was a hard game to lose and as equally a great one to win. Either team deserved the victory, for never on local ice have two teams battled more equally. The Canucks got the break, and the game.

Outstanding among the players on both teams were the goalkeepers, who, as in previous games for the Stanley Cup here, were greatly responsible for the long overtime.

Although the Canucks' forward line was slightly faster than that of their opponents, the Rangers' superior defence easily offset any advantage the "Flying Frenchmen" had in this respect.

RANGERS SCORE FIRST

Rangers were the first to score, Murdoch drilling a hot one past Hainworth on a pass from Butch Keeling near the end of the first period. They managed to hold their advantage until near the end of the second, when Mondou, who covered himself with glory by giving Morens the pass to score the winning tally against Chicago on Wednesday night, took the puck from Keeling as the latter came down to score. Skating through the whole Ranger team alone and meeting the defence, instead of swerving, Mondou bored through the middle and although he fell, managed to slide the puck into the net.

The Canucks now go to New York with a game lead. The second game of the two-out-of-three-game series will be played here Sunday night. The winner of the series meets Boston in the final for the Stanley Cup.

FIRST PERIOD

For the first ten minutes play was ragged, with practically no action on the ice chasing the puck. Rangers went into the lead with a hot shot by Murdoch on a pass from Keeling, which denied the net behind Hainworth at 13:30.

Reise went off for tripping Morens, but for each penalty given at least three were deserved. Taylor followed immediately after for tripping Sylvio Mantha. The game was rough, with high sticks and hard checks much in evidence. Canadiens kept the play behind the Rangers' blue line in force, but could not score. McCaffery was benched just as the bell rang.

SECOND PERIOD

Play was ragged at the start of the second. Sylvio Mantha came near scoring on a hard shot which drove Roach to his knees. George Mantha repeated the performance, but the New York goal tender was right on the job. It was all Canucks, and the Rangers had to relieve by shooting the puck down the ice.

Bourgeois, Murdoch and Keeling made occasional rushes, but Hainworth managed to stop their shots easily. Hard checking and high sticks again were in force, but were passed unnoticed by the referees except for specially flagrant infractions.

Johnson went to the box for tripping Leduc, and while he was off, Mondou evened the count for the Canadiens. The crowd went wild as he took the puck from Keeling, circled and skated straight through the Ranger defence. Falling as he neared the goal, the Canuck recruit reached out and pushed the puck past Roach. Canucks rushed hard for the rest of the period, but could not score. McCaffery was benched just as the bell rang.

THIRD PERIOD

Lepine, Reise, Bill Cook and Sylvio Mantha went off in quick succession at the start of the final frame. When the teams were in full strength again, Butch Keeling went off for violation of the anti-defence rule. While he was off Leduc missed a certain goal by letting the puck after he had drawn Roach out of his net. Bourgeois went off for tripping Sylvio Mantha, and a minute later Bill Cook off the same offence. Canucks worried the Rangers considerably, but could not score.

Leduc was next to get a penalty, the hefty Canuck defence getting him for tripping Thompson. The game was fast and fairly rough, with Canucks getting the best of the play.

FIRST OVERTIME PERIOD

Reise got a penalty for hitting Pete Lepine in the eye with his stick. While he was away, Canadiens almost scored, but Roach managed to save by falling on the

FINNIMORE TO DEFEND HONORS

Winner of Last Year's Good Friday Road Race Will Again Fly Colors of Y.M.C.A.

Cesar Finnimore, winner of last year's Good Friday road race, held under the auspices of the Britannia Branch, Canadian Legion, B.E.S.L., will attempt to annex the honors for the second year in succession, according to Archie McKinnon, physical director at the Y.M.C.A., whose colors the 1929 winner will be carrying.

Last year Finnimore ran one of the greatest races of his youthful career to nose out a select field and capture the honors, and his entry this year will create great interest in the senior division. Finnimore is also known in the local cycling world and has competed in The Colonist classic several times. His cycling ability, however, is eclipsed by his road racing, and he will face the starter in this year's Good Friday race, a strong favorite to retain his honors.

Besides Finnimore, the "Y" expect to have Frank Aldous and Felix Loewich, upholders of their color. Although Luckworth usually runs under the Shawanigan Lake Athletic Club, it is expected that he will be competing under Archie McKinnon's direction this year. The Shawanigan Lake runner finished well up with the leaders last year, and will be a feared starter when the gun is fired by Chief of Police John Fry.

Great interest is being created in the event and tonight at the Britannia Branch Headquarters the special committee will meet to discuss plans and make final arrangements.

Fame Doesn't Daunt the Newcomers

BOBBY JONES

I HOPE YOU WIN TODAY BOBBY BECAUSE I WANT TO KNOW YOU OFF TOMORROW

By AL DEMAREE (Former Pitcher New York Giants)

Art Sweet, the well-known amateur sharp shooter, recently told me a good Bobby Jones story.

"There's no limit apparently to the audacity and impudence of some of these young golfers," said Art. "Take the recent National Amateur tournament in Canby, Ore., for instance. Jones' opponent for the first eighteen-hole match was young Johnny Goodwin, who put Bobby out of the running. While they were waiting at the first tee Lawson Little, the fresh unknown, sought Jones out and said: 'I hope you beat Johnny this morning, because I want to have the pleasure of knocking you off tomorrow myself.' 'I didn't mean Johnny beating me,' said Jones afterwards, 'because I have won the title several times and it probably will help Johnny a lot to have trimmed me, but the thing that I said was to say that fresh kid, Little, get away with that remark and not be able to meet him and make him eat those words.'"

SHAUN GOLIN WINS GRAND NATIONAL

200,000 Crowd Old Aintree Course for Great Steeplechase

Special Trains, Aeroplanes and Thousands of Motor Cars Pressed into Service to Bring Thousands to See Great Test

AINTREE, Eng., March 28.—One of the most complete railway services yet organized in Great Britain, making Aintree the pulsating centre of a vast steel and iron nervous system stretching away to the far corners of the United Kingdom, brought some two hundred thousand persons into the town today for the ninety-first running of the Grand National steeplechase.

Altogether forty-three special trains were run in addition to the regular trains, to handle the vast hordes of racing fans. Thousands of others came by motor car and aeroplanes. Two ten-seater passenger planes, with full complements, reached Aintree from London before noon.

BOOKMAKERS HAPPY
Hotel proprietors smiled as broadly as bookmakers and the bookies already have been well treated by the "Lady Luck," what with the outsiders winning most of the races during the first week of the season and nearly every day producing a new "favorite" for the Grand National.

Crowds began to assemble at Aintree at daybreak and soon there were strolling among the marquees and in the paddock some fans who had come scores of miles just for a thrill. Pretty Canadian girls who found steeplechasing "just too intriguing," chic French girls with collapsible stools under their arms, dark-eyed Italian girls all chattering with gay excitement.

There were beautiful women and fast horses, tipsters, bookies, Lords

and Ladies, costers, all forming a cosmopolitan crowd. There's nothing like it elsewhere, not even at the Derby.

Today's renewal of the famous steeplechase marked 101 years of racing at Aintree.

MANY NOTABLES PRESENT
The Duke and Duchess of Westminster, back from their honeymoon, arrived early by special train with eighty guests from their country seat in Chester. Among them were the Marquis of Del Val, the Spanish ambassador, the Duke and Duchess of Marlborough, Lord Beatty, Lord and Lady Birkenhead, Rt. Hon. Winston Churchill and Mrs. Churchill, and a Liverpool man named A. E. Middleton, who journeyed from Africa to witness the 1930 Grand National. He has not missed a race in twelve years and he made a thousand-mile trip across the Sahara Desert to be on hand for this one.

One of the chief attractions of the great race—the first appearance of the new spring sports fashions—blossomed early this morning. Nearly every second woman wore a bonnet-shaped hat of closely-knit wool to match her new tweed dress or suit and ornamented in a diamond clip brooch equally useful for shoes, dresses and hats. The hats were being worn far back on the head, fitting snugly over the ears.

Mustard yellow, China blue, bright jade green were the most popular shades. Some were speckled with beige and grey. Checks appeared very large.

The National Boxing Association gave warning today it may stop what it termed the one-round setup, knock-out tour of Primo Carnera, immense Italian heavyweight, who has been making money by flooring allegedly inferior opponents.

Stanley M. Isaacs, N.B.A. president, said Carnera, rated as a first-class fighter and considered in many quarters as a championship possibility, has been making a comedy of the American boxing game by instilling on contracts "where unqualified opponents have been sacrificed to his money-grabbing tactics."

Aroused because he says the foreign boxer has refused to meet boxers of high rank, Isaacs says the situation called for immediate investigation and appointed a committee.

LETTERS TO THE EDITOR

RE RANGERS' VISIT TO CANADA
Sports Editor, The Colonist:

Sir,—Early in June we shall have with us the Glasgow Rangers football team, and it behooves the soccer authorities of this city to get a move on.

To even attempt to play football with them is out of the question—so much is admitted—but with the team attaining a high degree of physical fitness and natural ability to play football, it is possible to make it an interesting and profitable game for the public's point of view.

We must remember the visitors have traveled a few thousand miles to get to this city, and it behooves us to adjust its method of living to meet with climatic conditions, change of water, food, etc. This is a handicap which all experienced players will have to overcome, and in itself is almost enough to balance the game with our local team.

The line-ups of the probable mentioned herewith be asked by the L.I.F.A. to get out and train under a competent trainer. It is not too early to do this now, and will give both players and trainer the opportunity to prove to the local enthusiasts that they are capable of giving them full value for their money.

We are both willing to give our time, energy and experience in getting this team fit for their great sporting event.

Our suggestions follow:
Goalkeepers—Shrimpton, Farquhar, DeCosta.
Backs—Margison, D. Bissell (Wednesday), Harper, Archie Campbell.

Halfbacks—Crows, Preston, Bowman, Eddie Gibson, Hay, D. Stewart.
Outside rights—H. Youson, Burgess, R. Stewart, Phillips.
Inside rights—Mulligan, "Scotty" Stewart.

Centre forwards—Peers, Quinlan, Inside lefts—Clancy, Robinson.
Outside lefts—Muleahy, McGinnis.
G. SPENCE MATTHEWS.

Heavyweight Wrestling Champ to Show Here Next Saturday

THE anxiously awaited visit of "Dynamite" Gus Sonnenberg, world's heavyweight wrestling champion, has been put forward one week, according to information received last night from F. B. Richardson, secretary of the Tillikum Athletic Club, which is bringing the champion here. Sonnenberg will show in a local ring next Saturday instead of April 12, as previously scheduled.

Just who will meet the king pin of heavyweight grapplers is not known at present, but Bob Kruse, Dr. Sarpolis and Harry Marshall are all probable opponents for this big shot. Kruse, who has showed here on three different occasions, is particularly anxious to get a chance at the champion, fully realizing what this means.

Chicago Heavyweight Novice Placed Beyond Pale for Poor Showing Against Italian

CARNERA TO MEET McAUFLIFFE TONIGHT

KANSAS CITY, March 28.—George Trafton, Chicago heavyweight novice, was indefinitely suspended by the Missouri Boxing Commission for failing to offer any semblance of fight in his 54-second swooning session in the ring here Thursday night with Primo Carnera, the immense Italian.

Announcement of the suspension, which is expected to extend to other states affiliated with the National Boxing Association, was made by Harry Davis, Kansas City member of the state commission.

While not criticizing Carnera for the outcome of the bout, Davis said the Italian would not be permitted to box in Missouri again unless a "worthy opponent" is produced.

The European invader, who under the crafty management of the French boxing stable owner, Leon Sec, collected more money than \$100,000 by bowling over a dozen selected second and third-rate foes on his tour of the United States.

FOURTH EXTRA O.T. PERIOD
One hour and fifty minutes of hockey, fifty-five of it overtime, the longest overtime ever played in the history of the National Hockey League, had been accomplished when the fourth extra overtime period started.

Although both teams were tired, the pace failed to slacken perceptibly. The same players made the same plays time after time until they became monotonous. Neither team would give an inch. The goalies received few shots, and these they found easy to stop.

Finally, after sixty-eight minutes of overtime, Gustave Desrivieres, Canadiens' newest recruit, took the puck after a scramble and the Rangers' goal to slam it over Roach's body to win the game.

The line-ups:
Rangers: Roach—Goal—Hainsworth. Defense—S. Mantha, Burke, Johnson, and McCaffery. Centre—Boucher. Wing—Laroche, F. Cook. Wing—Laroche, F. Cook. Wing—Laroche, F. Cook.

Irish Horse Captures First Place by Neck In Thrilling Finish

Mellera's Belle Second, With Sir Lindsay Third—Only Six of Forty-One Starters Complete Grueling Test

(Canadian Press)
AINTREE, England, March 28.—Never was the vagary of luck, which is the chief fascination of England's greatest sporting spectacle, better emphasized than at the thrilling victory of a horse, which boasted so little pedigree that his sire was unknown and who was esteemed so lightly that he was bought for a hundred dollars as a two-year-old.

Tonight there were numerous celebrations, both in London and the provinces. The feature of one dinner was a great cake-model of the National course with all the famous landmarks done in sugar icing. Many bright young things, youths and flappers of the wealthy classes, did not see bed for forty-eight hours, owing to the before-and-after celebrations.

The day's colorful events were unmarred by any mishap to the gallant four-footed ones who provided the sport. All the horses emerged from the stern ordeal of stamina unscathed, although only the few finished. The sole casualty came with the fall of a jockey, R. McCarthy, who fell from Savernake and injured his shoulder. McCarthy, however, is progressing favorably.

Only a neck separated the Irish-bred jumper from William Wilson's Mellera's Belle, and barely a length and a half behind the Belle came Sir Lindsay, the American-owned favorite carrying the colors of the J. H. Whitney stables.

SIX COMPLETE GRIND
Only six of the forty-one starters finished the gruelling test of more than four miles. Following Sir Lindsay across the finish line were Mellera's Belle, and barely a length and a half behind the Belle came Sir Lindsay, the American-owned favorite carrying the colors of the J. H. Whitney stables.

It was finally decided to leave the rules in this regard as they were.

RULES CLASSIFIED
Other changes in the rules, some of which were merely to clarify the present ones, were as follows:
"A player, other than a goalkeeper, losing his stick, is automatically out of the play until the same is recovered or legitimately replaced." This will prevent a stickless player from picking the puck or interfering with an opponent, and offenders will receive a minor penalty.

"A goal cannot be scored off the skate or any part of the body of an attacking player."

"That in all C.A.H.A. groups or leagues the point system of scoring be adopted, with two points for a win and one for a tie."

"That the C.A.H.A. recommend to the Canadian Olympic Committee that the winners of the Allan Cup in 1931 be selected to represent Canada in the Olympic games of 1932, providing said team is intact and at full strength when the games are played."

AMATEUR ICE HOCKEY MAKES HEAVY GAINS

Over 1,300 More Players Were Registered With C.A.H.A. This Year Than in 1928

BODY IS AGAINST REINSTATING PROS

TORONTO, March 28.—Announcement of the registrar that 13,675 players were registered with the association, tabling of the financial report revealing a balance of \$29,871, and almost unanimous adoption of a resolution instructing the association's representative at the next annual meeting of the Amateur Athletic Union of Canada to vote against any move provided for the reinstatement of class "A" professionals, marked today's session of the Canadian Amateur Hockey Association's sixteenth annual convention. It was understood, however, that the C.A.H.A. would recognize any reinstatements made by the A.A.U. of C., as is now the case.

W. A. Hewitt, Toronto, registrar, in presenting his report, said with the exception of Ottawa and district, Saskatchewan and the Maritimes, there was an increase in the registrations from all branches. The increase in the total over 1928 was 1,344.

Branches, registrations were: British Columbia, 217; Alberta, 744; Saskatchewan, 299; Manitoba, 457; Thunder Bay, 296; Ontario, 9,774; Ottawa and district, 650; Quebec, 962; Maritime Provinces, 256. Actual registration of the Ontario Hockey Association was given as 4,124.

JUNIOR LIST UP
More junior players were registered this season than in any other previous year, the registrar stated, and there had been an increase of more than 100 per cent since the season of 1928-27, when the total registration was 5,961.

E. A. Gilroy, president of the Manitoba Association, advocated the extension of body checking privileges to all players. The Manitoba delegate said he believed modern players did not have to teach for it, thus causing tenderness in the body and destroying the effectiveness of the swing.

In opposing the motion, W. A.

SHOWING HOW THE SWING SHOULD DETERMINE THE IMPETUS GIVEN THE BALL

In general, what is the proper method of approaching the green when the distance is not great?

Answered by WILLIE HUNTER

Use a mashie. Do not try to get strength into approach shots. Let the length of the swing, rather than the power, give the ball its impetus. Instead of strength, a solid grip is essential. The ball must be addressed in such a manner that the player does not have to reach for it, thus causing tenderness in the body and destroying the effectiveness of the swing.

VANCOUVER, March 28.—There was little or nothing doing on the Vancouver Stock Exchange today, prices generally moving in narrow range with no definite trend. Oils and mines were equally dull.

Big Missouri and George Copper, yesterday's features, had little interest taken in them today. Big Missouri was up to 62, while on a turnover of less than two hundred shares, George Copper dropped to 22.25, off 15c. Goldco was off 30 to 71. Otherwise the mines were dead.

There was no outstanding feature to the oil section of the list. Home appeared to the extent of only fifty shares, and was quoted at \$9.20, with the final bid at \$9.10, off 15c. Mill City was up .04 to 46, while Hargal gained 30 to \$11.5.

CALMONT OILS, LTD.

On Thursday, March 20, Calmont No. 2 commenced pumping into the limestone after changing the equipment over to the special Sheldon-Burdon drill.

This well is 25 feet in the lime and the adjacent Home producers are getting production at a depth of 185 feet in the limestone.

Both Calmont Nos. 1 and 2 are now proceeding to the horizons that give the "golden fluid."

MORE RICH ORECORE SHOWS FIFTEEN PER

MINE

Massive Body Indicated by Result of Operations—East Drift Still in Ore

(Christy, Nall & Co., Ltd.)

A report was received yesterday from the Oregon Copper Company that the drill hole on the Leached vein struck ore averaging between 5 and 6 per cent copper, the last ore showing 15 per cent.

There is every indication of a massive ore body being encountered. Mr. Elmer, the engineer in charge of operations, stated that the drill hole at least 100 feet wide. Additional unexpected ore was found in the Poorman shaft, estimated 2 1/2 per cent copper.

The east drift, which encountered ore some time ago, continues in ore, and there is every reason to believe that this drift will be at least a 100 foot ore shoot. Further news with regard to the diamond drill core is expected.
